

Epicor Consulting Services

A Leader in Delivering Business Solutions & Professional Services

We are committed to understanding your Epicor business system needs and delivering innovative ERP solutions and services. Whether you're looking to maximize your Epicor software through an implementation or upgrade, need assistance with creating and customizing reports, or simply need better and more responsive support for your Epicor ERP software, we can help.

IT MANAGEMENT AT ITS FINEST

Why VEITS?

VEITS GROUP'S COMMITMENT TO YOU

Our team has over a decade of experience in helping companies across all industries successfully maximize their ERP investment. Our company has deep ERP experience, possesses a global footprint of strategically located consultants, and offers multinational support to better serve you. We are recognized throughout the industry for our intense focus on our clients' needs. From Application Consulting to Technical Support; VEITS Group works with you to identify your needs and then custom tailor our solutions to fit them perfectly.

Building close relationships with our clients and our drive to provide long-term value is what enables us to boast about possessing an unparalleled track record of repeat clients. **We stand behind our Epicor ERP project quotes and Epicor assessments 100%** - so you know what to expect from day one on your project. Your trust and satisfaction are the cornerstones to our continued high success rate.

"I am a results-oriented person; if something needs to be done, I expect them to do it. And after working with VEITS Group for several years, I can attest to the fact that they deliver results. VEITS Group's core competency, knowledge, and ability to identify and resolve issues quickly are what differentiate them."

- VEITS Group Client

Below are a few highlights of our ERP expertise:

- Proficient in multiple Epicor solutions
- Completed over 700 successful projects
- Consultants average 10+ years of experience
- Wide range of industry expertise including manufacturing & financial backgrounds
- Deep Planning & Scheduling experience

Project Management

After managing many successful ERP projects, we have developed a repeatable methodology to ensure you complete quality deliverables on time and within budget.

Application Consulting

Although your challenges are unique to you - our consultants have years of experience dealing with similar challenges. We combine this experience with our commitment to your success by providing solutions that are tailored to your individual needs.

Enhancements & Customizations

Stop being confined to the limitations of your Epicor system. VEITS Group can work with your team to develop customized solutions in Epicor that better meet your business processes.

System Audits

Ever find yourself wondering if your company is getting the most out of its Epicor investment? Our trademarked VEITS Epicor audit solutions have helped companies successfully maximize their Epicor business systems. Our system audits also help companies better utilize Epicor more efficiently for their specific needs. VEITS Epicor audit solutions will help you utilize Epicor even better by answering questions like:

- How can we take advantage of the modules we have already purchased?
- Should we stay on our current version of Epicor or Upgrade?
- What are some typical Epicor hurdles other companies face?
- And many more!

Implementation Services

Our trademarked VEITS Implementation methodology coupled with our talented and knowledgeable consultants are proven to maximize your Epicor investment.

Upgrades

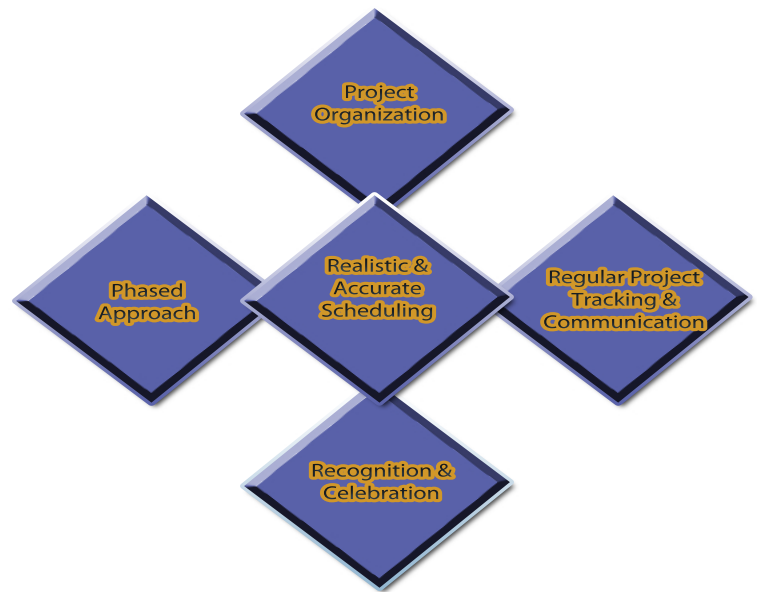

We have developed a repeatable upgrade methodology and have extensive experience in migrating from any previous versions to the latest release.

Training

VEITS Group offers novice to advanced level training on all Epicor modules. Training can be on-site, off-site, or web-based. We offer customized training for your staff based on their roles in the organization. We can even train you using your own data to maximize learning. In cases that it may be more cost effective for your organization, we also offer a “train the trainer” approach.

Support

Do you have a Epicor question that needs urgent attention? Our team of Technical Support Consultants are ready to help solve your most urgent and difficult challenges.
